# One World Surgery: Our Future

## Join us in improving global health.

We fund and operate a state-of-the-art surgery center in **Honduras**, and we broke ground this year on our second site in the **Dominican Republic**.

**In 2019, more than 800 volunteers** participated in week-long medical missions to provide innovative, sustainable care. **In 2020, the need continues to grow.** There are currently over 5,000 patients on the Honduras waiting list; the average patient has been waiting 4.4 years for surgery.

**We need your support!**

*“The fact is, the money raised by the gala is critical to continuing the work we do, and people need us now more than ever. We ask you to sponsor at the highest possible level, with the understanding that if the event can’t take place, your contributions will go directly to supporting our shared mission.”*
